

# SILVOPASTURE FIELD DAY 2019

## REGISTER HERE

July 25, 2019  
9:00AM - 4:45PM

Cherry Hospital Conference Center,  
Montgomery Dr, Goldsboro, NC 27530

Later in the day participants will visit the  
Agroforestry Unit at CEFS Field Research  
Education, and Outreach Facility at  
Cherry Research Farm

(farm coordinates: 35.3841520, -78.0344300)

Silvopasture, the intentional practice of integrating forages, animals and trees, is one type of agroforestry with potential to improve ecosystem responses and provide multiple sources of farm-income.

Interested in successfully transitioning or starting a silvopasture system? Join us for a workshop, field day, and on-farm instruction including the latest silvopasture research from North Carolina and Virginia.

Plus, learn about a new NC Choices USDA project aimed at connecting beginning livestock producers with silvopasture and other land opportunities across the state.
