

FINANCIAL ANALYSIS AND BUDGET PLANNING FOR SMALL FARMERS WORKSHOP

March 20, 2019 | 9AM-12PM

This workshop offers participants a simple and easy-to-use record keeping system and farm financial analysis using Excel. Dr. Liang will work through record keeping categories, depreciation, insurance, loan payment, monthly expense and income forecast, monthly cash flow statement, monthly income statement, and link all information to a farm balance sheet. Leeanna Bunch and Matt Ball from the CEFS Small Farm Unit will be available to answer technical questions regarding the seeds, supplies and equipment used in the recordkeeping system - which is based off a mixed annual vegetable research plot.
